

# John Muir Medical Center Walnut Creek Campus

- ◆ 324-bed acute care facility
- ◆ Designated as the only trauma center for Contra Costa County and portions of Solano County
- ◆ 9777 Case Carts Delivered for Surgical Procedures in 2006  
*(Main O.R. + Labor & Delivery)*
- ◆ 115,802 Items Sterilized in 2006

# CPD Space and Inventory Issues

- ◆ CPD was *running out of floor space!*
- ◆ Wire storage shelves were antiquated and at maximum holding capacity.
- ◆ Without updating, CPD would become unable to meet the increasing needs of the OR to add instruments and supplies safely and efficiently.
- ◆ Due to volume of inventory wire action shelves were becoming extremely heavy and there was a danger of becoming overloaded
- ◆ Need to prevent potential staff injuries to back, shoulder, elbow and wrists.
- ◆ Continual need to add more technologically advanced surgical instrument systems.

# Space and Inventory Issues

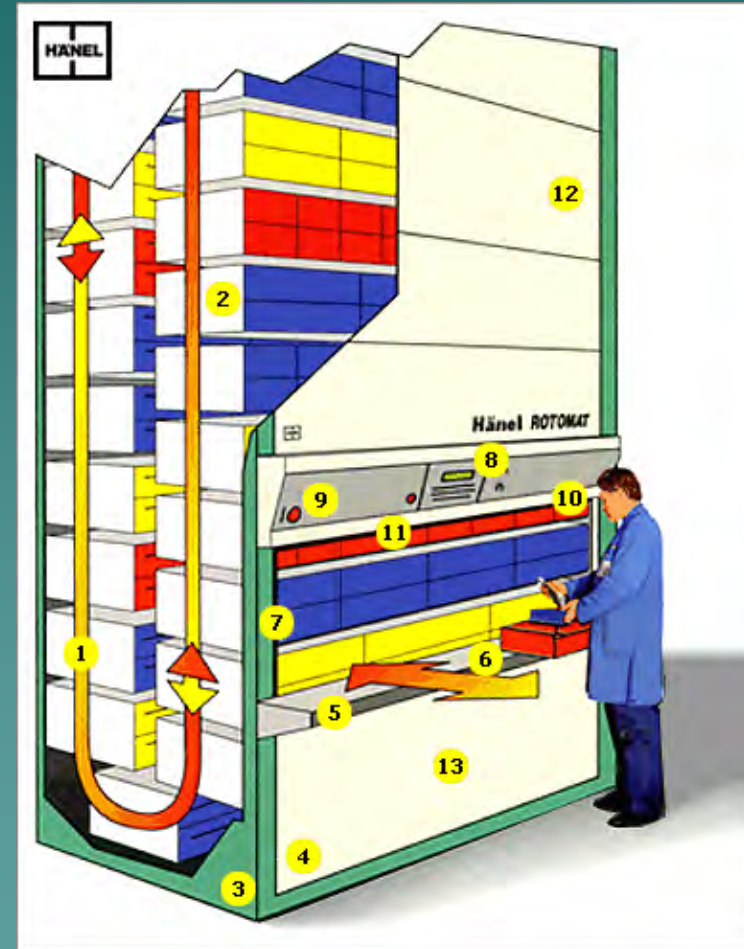

## Continued

- ◆ CPD needed a way to better control and manage valuable implant storage for (9) vendors as well as update reporting and management processes to better identify the true value of implant inventory.
- ◆ Projected **\$1.2 Million** needed for CPD Expansion!

# What is Hänel Rotomat?

- ◆ *It is a total turnkey solution for a complete automated storage and retrieval system.*

# What does Hänel Offer?

- ◆ Hänel Rotomat tailors the interior storage to the most varied of requirements.
- ◆ Hänel Rotomat looks after thousands of individual items in an orderly and protected environment - ready for retrieval at the touch of a button.
- ◆ Hänel Rotomat provides an innovative Local Network and Internet Capabilities.
- ◆ Software currently used by CPD (T-Doc and McKesson) can work effectively with the Hänel storage systems.
- ◆ “Goods to user” is the motto, not user to goods.
- ◆ The required items are brought to the ergonomic retrieval height at the touch of a button!
- ◆ Safety is of paramount importance. No climbing of ladders; greatly reduced danger of accidents!

# From Germany to Port of Oakland

## Hänel Arrival

### *D-Day!*

**Each Hänel wall weighs 800lbs!**

# Watch out for your toes!

# Hänel unit takes shape

**How did we manage the project?**

**It was with  
Exceptional  
Team Work!**

**After three weeks  
our accomplishments  
are realized!**

# From narrow and Cramped...

# To Organized, Safe and Efficient

# *Valuable Implant Inventory Storage* From this...

# To This!

# Hospital and Department Benefits:

- ◆ The \$1.2 million cost of expansion for John Muir CPD is eliminated.
- ◆ Organization of inventory enhanced by a single storage location with ergonomic, easy order picking capability and computer controlled access.
- ◆ Search, travel and pick times are reduced by enabling the operator to pick items from a central location.
- ◆ Over 60% more storage capacity!
- ◆ Inventory control is dramatically improved with Hänel automation.
- ◆ Valuable Implants managed in a controlled surrounding.
- ◆ A safer employee work environment.
- ◆ Optimum use of storage volume, due to height-optimized storage!

# Thank You!
